

# FAMILY AAC TRAINING SESSIONS (FAACTS)

**HERE ARE THE FAACTS ... FAMILIES NEED TO LEARN ABOUT AAC TOO!**

**WHAT:** New online workshops for parents/caregivers of children who use (or might need!) some form of Alternative and Augmentative Communication (AAC). Hosted by the TN-Talks program, weekly sessions will provide information and guidance, showcase communication tools, devices, and strategies as well as offer ideas and resources for implementation.

**WHEN:** EVERY TUESDAY NIGHT 5:00 – 6:00 EST (4:00 – 5:00 CST)

**TELL ME MORE!** This group allows families to receive instruction and share their ideas, struggles, and successes with other families while finding support for their own journey. Some sessions will feature guest speakers with focus on specific topics, while others will simply provide a forum for discussion and sharing.
